SAVNEET KAUR

Regina, SK | savneet1906@gmail.com

PROFILE SUMMARY

Aspiring full-stack developer and Computer Systems Technology student at Saskatchewan Polytechnic, graduating in June 2027. Hands-on academic experience in Java, C#, SQL, HTML, CSS and database design, with exposure to JavaScript, Node.js and Python. Bringing over six years of teaching experience, strong communication, teamwork and a practical approach to solving problems.

TECHNICAL SKILLS

- Programming: Java, C#, JavaScript; introductory Python
- Web development: HTML, CSS, foundational Node.js
- Databases: SQL, relational modelling, ER diagrams, primary and foreign keys, JDBC, Microsoft Access
- Development tools and concepts: IntelliJ IDEA, WebStorm, object-oriented programming, client-server architecture, data structures

EDUCATION

Computer Systems Technology | Saskatchewan Polytechnic, Regina, SK
Currently enrolled | Expected graduation: June 2027

Bachelor of Education | University of Regina, Regina, SK
September 2021 – December 2023 | Academic Silver Scholarship

Bachelor of Science (Home Science) | Punjabi University, Patiala, India
June 2010 – July 2012

TECHNICAL EXPERIENCE | ACADEMIC PROJECTS

Saskatchewan Polytechnic | Computer Systems Technology coursework

- Hospital Management System (Java, SQL, JDBC): Developed client-server components to create, retrieve, update and delete patient records using prepared SQL statements and a Microsoft Access database.
- D&B Musical Emporium (HTML, CSS): Built a multipage music retail website with product listings, About and Wishlist pages; organized navigation and reusable page structure in WebStorm.
- Animal Registry Database (SQL / relational design): Designed an entity-relationship diagram and six-table relational schema with primary and foreign key constraints; documented relationships and business assumptions.
- C# data structures: Implemented AVL tree operations and a student hash table with linear probing and lookup functionality.
- AI localization capstone research: Collaborated on evaluating large language models for movie-title translation and localization, exploring model benchmarks and scaffolding approaches.

PROFESSIONAL EXPERIENCE

Regina Public School Board | Substitute Teacher | January 2024 – Present

- Communicate complex ideas clearly, adapt to varied learning needs and collaborate with school teams.

Regina Public School Board | Special Casual Assistant | November 2022 – December 2024

- Supported individualized learning plans and coordinated with teachers and support personnel.

Khalsa Elementary School, Surrey, BC | Elementary School Teacher | March 2020 – June 2024

- Designed lessons, integrated educational technology and worked collaboratively with families and colleagues.
